SoundTube offers a selection of IP, Dante/AES67 enabled, POE speakers.

- **Everything Included**

All the items you need to install your speaker are included in the box

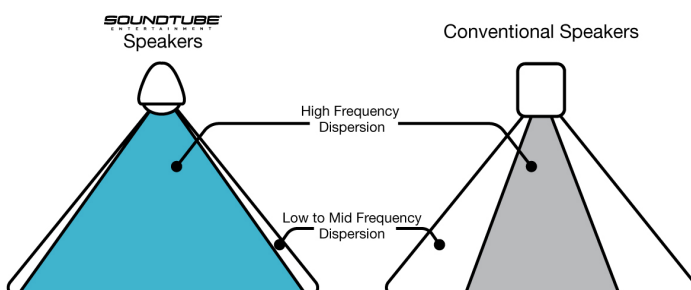

- **Ease of Specification**

Documentation easily accessed on the website

### BroadBeam®: Ensuring the Best Sound Coverage

Our patented BroadBeam® waveguide technology produces a predictable 110° coverage pattern that ensures you don't have to be directly in front of or beneath a speaker to get great sound.

While the beam of sound created by a typical speaker is direct and narrow, BroadBeam disperses a much fuller sound to create a wider beam, providing crisp vocals and unrivaled clarity between musical notes to a larger area.

### Innovative features that save you time and money!

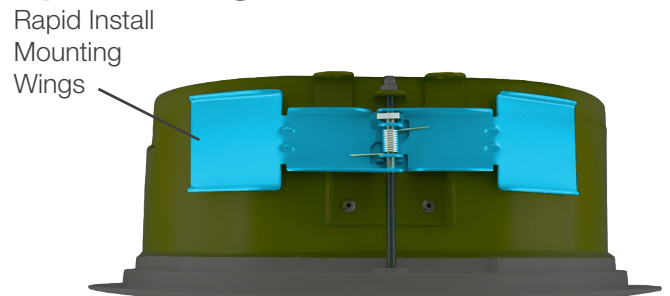

#### Speed Clamp™

Self-locking wire grip

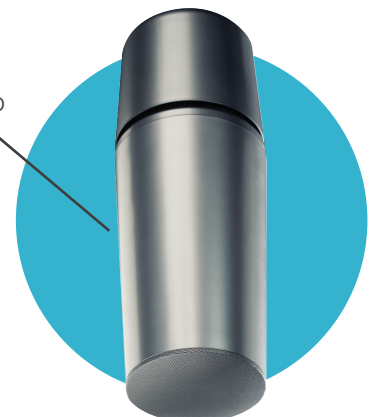

#### Speed Wings™

Rapid Install  
Mounting  
Wings

#### Full-Range Coverage

Full-spectrum audio  
all in one speaker
